**REFIN** COLLECTION

60x120cm / Glossy

LIGHT & DARK

A journey into the heart of Italy is the underlying theme of Landscape, the new Refin collection inspired by the limestone central to the character of the most typical Italian countryside. A simple, tasteful collection, featuring natural colours and elegant vein patterns, tone-on-tone shade variation and a luminous chromatic range. The understated beauty of the sedimentary rock of which so many Italian villages and cathedrals are built is the key-note of a strongly contemporary collection, influencing a classic material with sophisticated inputs from the very latest trends.

**Refin: the unseen face of marble**

Marble has always played an important role in art and architecture, embodying style and uniqueness in every furnishing solution.

The Collection brings together world's most exclusive marbles and reinterprets them for contemporary taste in a complete, original project. From the timeless elegance of Carrara to the strong personality of Bianco, the expressive power of Stone, the intensity of Black and the sophistication of Sahara. Natural beauty and creativity merge in this unusual, sophisticated project, which offers a new aesthetic, shaped by blending the elegance of marbles with the transparency and fluidity of resin.

## ADVANTAGE & FEATURES

Nature, technology, science and design. Top quality ceramic surfaces are compact and impermeable, because they're made from pure minerals pressed and sintered at more than 1200°C. The best choice, for durability, safety, hygiene and beauty.

### Versatile Size

Available in the grand size, the collection presents you with a perfect tiling solution to create seamless interiors.

### Safe & Secure

Non-porous, hygienic, stain and scratch protected, the tiles from this collection are also ice and thermal shock-resistant.

### Design Varieties

Available across a spectrum of patterns, the collection offers variety for all kinds of spaces and preferences.

### More Sustainable

The collection is made from exceptionally durable and recyclable material, giving it an edge with its ecological and ecofriendliness.
